

c-SRC β -arrestin Signaling Pathway LinkLight™ Assay

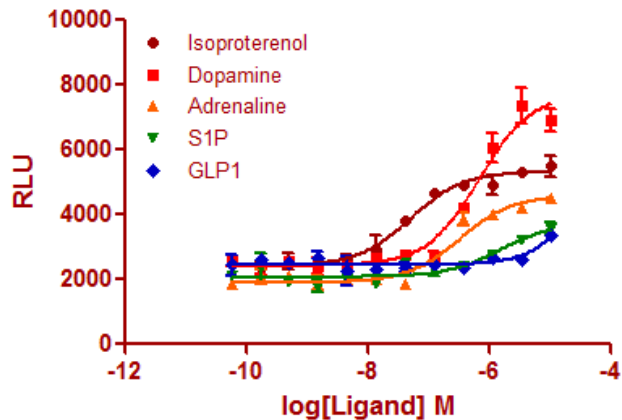

c-SRC/ β -arrestin LinkLight™ Assay

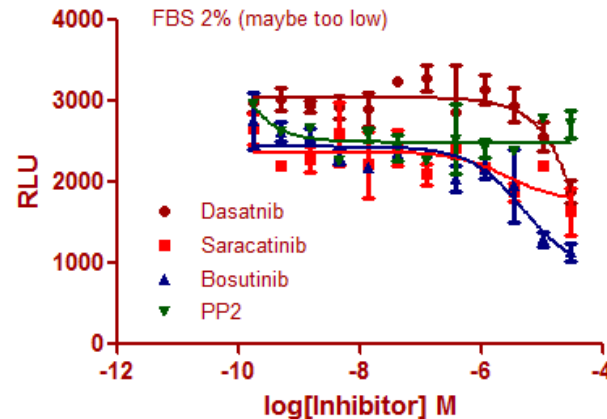

c-SRC/ β -arrestin LinkLight™ Assay

SRC/ β -arrestin U2OS#13

SRC/ β -arrestin U2OS#13

β -arrestin/c-Src interaction has been demonstrated previously in the literature ([EMBO J.](#) 2001 Sep 17; 20(18): 5129–5138) . Activation of endogenous RTKs and GPCRs in U2OS cells promotes c-SRC/ β -arrestin interactions. Pan-kinase inhibitor staurosporine and some tyrosine kinase inhibitors can inhibit the interaction signals.
